

Woodland Series real wood composite Species looks and feels like timber.

Our manufactured wood is a far superior solution to damp area or extreme sunlight installations. In fact it has all the attributes of Timber Shutters with more benefits.

Guaranteed not to crack or split, it can be stained any timber tone for interior installations and as a solid painted shutter it surpasses that of painted basswood. Our Polywood Combo can be produced as an Aluminium reinforced Security compliant plantation shutter and can be motorized..

Woodland

Shutter Motion

Our customized hand-crafted Shutters exude an aura of sophistication and timeless beauty.

The Hampton Range, an engineered Polywood will outperform wood shutters and is noticeably far superior to hollow Vinyl. Polywood is suitable for interior & exterior applications due to its advanced imbedded paint system. Available in Satin White, Satin Off White & Custom color.

Our entire range features the patented and exclusive to us "No Tilt Rod" LouvreMover inbuilt blade actuator. No staples, no ugly stick, and no failure.

Hampton

Shutter Motion

Shutters R Us are the definitive source of traditional and contemporary hard window furnishings and Sun Control solutions. Our range compliments the decor of any room and enhances the architectural elements of any building. Choose from an extensive range of profiles and materials as a solution to the needs of the design project.
